eFOTM 120104 Release

December 17, 2004

Introduction

The FMCSA Field Systems Team semiannual software release includes electronic Field Operations Training Manual (eFOTM) 120104.

The eFOTM presents investigative procedures and techniques in an electronic format. The manual is a tool to help you plan and complete simple, unusual, unique, and/or difficult investigations.

Enhancements and Bug Fixes

The following bullets outline the various enhancements and fixes that have been made to eFOTM.

- A revision page was added to the eFOTM. This page is located at the back of the manual and lists all changes made. For specific eFOTM changes, please refer to this page.
- You can now download and complete forms directly from eFOTM.
- The Hazardous Materials worksheets are now available in eFOTM.

Technical Support

This document may explain or identify many general questions or issues that you may have noticed with eFOTM. However, you may still have concerns or questions. For more information, contact the FMCSA Technical Support Team:
